

Mielies

Kleinskaal en opkomende produsente

GEELMIELIES

SNK2778

- Geelmieliebaster met medium groeiperiode.
- Goeie weerstand teen grysblaarvlek en rooiroes.
- Goeie staanvermoë.
- Presteer in verskillende opbrengspotensiale – altyd stabiel.
- Goeie suurgrond- en aluminiumverdraagsaamheid.
- Word aanbeveel vir Limpopo en Oostelike produksiegebiede.
- **Verpakkings 2 kg, 5 kg en 10 kg.**

Die volgende kultivars is beskikbaar in 5 kg en 10 kg verpakkings: DKC80-40BR, DKC80-30R en DKC80-10. (Volledige beskrywing is onder “Geelmielies”)

WITMIELIES

CG4141

- Bekende witmieliebaster wat deur kleinskaal-produsente aangeplant word.
- Mieliebaster wat in ekstreme toestande stabiel presteer.
- Uitstekende graan- en maalkwaliteit.
- Baie goeie staanvermoë.
- Geensins plantdatum-gevoelig nie.
- Word aanbeveel vir Swaziland en Lesotho.
- **Verpakkings in 2 kg, 5 kg en 10 kg.**

SNK2147

- Bekende witmieliebaster wat deur kleinskaal-produsente aangeplant word.
- Mieliebaster wat in ekstreme toestande stabiel presteer.
- Uitstekende graan- en maalkwaliteit.
- Baie goeie staanvermoë.
- Geensins plantdatum-gevoelig nie.
- Word aanbeveel vir Limpopo Provinsie.
- **Verpakkings in 2 kg, 5 kg en 10 kg.**

DK8073

- Baie hoë opbrengspotensiaal.
- Uitstekende graankwaliteit.
- Uiters sterk meerkoppig.
- Medium groeiperiode.
- Vinnige afdroging.
- Baie goeie hitte- en droogteverdraagsaamheid.
- Gebruik in toevlugsgebied saam met DKC78-15B.
- Word aanbeveel vir Swaziland en Limpopo Provinsie.
- **Verpakkings in 2 kg, 5 kg en 10 kg.**

CRN3549

- Baie hoë opbrengspotensiaal.
- Uitstekende graankwaliteit.
- Medium groeiperiode.
- Vinnige afdroging.
- Baie goeie hitte- en droogteverdraagsaamheid.
- Kan in alle gebiede geplant word.
- **Verpakkings in 2 kg, 5 kg en 10 kg.**

Die volgende kultivars is beskikbaar in 5 kg en 10 kg verpakkings: DKC78-45BR, DKC78-35R en DKC78-15B.

(Volledige beskrywing is onder “Witmielies”)

Maize

Smallholder and emergent farmers

YELLOW MAIZE

SNK2778

- Yellow maize hybrid with medium growth period.
- Good tolerance of grey-spot and brown rust.
- Good standability.
- Performs well at all yield potentials.
- Good tolerance of acid soil and aluminium.
- Recommended for Limpopo and Eastern production areas.
- **Packaged in 2 kg, 5 kg and 10 kg.**

The following cultivars are available in 5 kg and 10 kg packaging: DKC80-40BR, DKC80-30R and DKC80-10. (Complete cultivar descriptions are in the “Yellow maize” section)

WHITE MAIZE

CG4141

- Well-known hybrid planted by small-scale producers.
- Maize hybrid with stable performance in extreme conditions.
- Excellent grain and mill quality.
- Very good standability.
- Not plant-date sensitive at all.
- Recommended for Swaziland and Lesotho.
- **Packaged in 2 kg, 5 kg and 10 kg.**

SNK2147

- Well-known hybrid planted by small-scale producers.
- Maize hybrid with stable performance in extreme conditions.
- Excellent grain and mill quality.
- Very good standability.
- Not plant-date sensitive at all.
- Recommended for Limpopo Province.
- **Packaged in 2 kg, 5 kg and 10 kg.**

DK8073

- Very high yield potential.
- Excellent grain quality.
- Strongly multi-eared.
- Medium growth period.
- Dries rapidly.
- Very good heat and drought tolerance.
- Use as refuge area along with DKC78-15B.
- Recommended for Swaziland and Limpopo Province.
- **Packaged in 2 kg, 5 kg and 10 kg.**

CRN3549

- Very high yield potential.
- Excellent grain quality.
- Medium growth period.
- Dries rapidly.
- Very good heat and drought tolerance.
- Can be planted in all areas.
- **Packaged in 2 kg, 5 kg and 10 kg.**

The following cultivars are available in 5 kg and 10 kg packaging: DKC78-45BR, DKC78-35R and DKC78-15B.

(Complete cultivar descriptions are in the “White maize” section)
